

ONEBOX TECHNOLOGY

Why OneBox?

“No One” use hotel telephone

- Guests prefer using private mobile than hotel telephone for daily communications.
- Telephone system costs a lot but brings no profit.
- As devices get older, the cost of renewing and maintaining them are high.

Lower Cost

- Hotel only pay yearly rental fee for using OneBox cloud services.
- No need to buy the PEX. No devices deployed on site. Cut down the expense on employees.

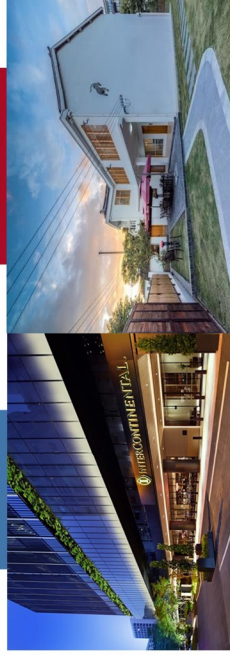

Improving Guest Experience

- Changing the traditional means of communication between hotel and guests.
- Improving guest experience & satisfaction.

Keep hotels up-to-date

- With the rapid development and maturity of IP technology ,AI and cloud computing, more competitive and forward-looking products have emerged and to substitute the current IT system in hotel.
- OneBox keeps up with the technology trend, Bringing diversified technology applications to the hotel.
